

Naturally leading the transition

### ANYOHELP ANY

Get the details

And do you want to earn a new client and an allexpenses paid trip to the World Expo in Japan while you're at it?

### 

As part of their commitment to sustainability and circularity, Kikkoman want to find a **more valuable use for their waste streams.** 

# **CAN WE PRODUCE PRODUCE PACKAGING FROM THE LEFT-OVER SOY CAKE?**

At Kikkoman, soy sauce is made from the 4 natural ingredients of soybeans, wheat, salt and water. After soaking, mixing, fermenting and heating the ingredients to make the sauce, **Kikkoman produce 5-6,000 tons of the waste stream 'soy cake' per year.** They'd like to find a sustainable and innovative application for it too. Do you have the expertise needed to **make bioplastic packaging from soy cake?** 

Naturally leading the transition

# KIKKOMANIS LOOKING FORA PRODUCTION PARTNERSHIP

As solution provider, you will start a partnership with Kikkoman in which **you develop a process** to handle the soy cake, in order to **produce packaging exclusively for Kikkoman at your own company.** 

# WHAT'S IN IT FOR YOU? A NEW CLIENT AND A WORLD STAGE

**The TopDutch Innovation Challenge** is bringing together Dutch and Japanese firms as part of the Netherlands' **Road2Osaka** preparations.

The party offering the best solution for Kikkoman will win the tender to develop and produce the new soy cake application.

In addition, the winner will go together with Kikkoman and NOM to the **World Expo in Osaka, Japan** in September 2025. There, they will present the innovation together.
